

Julie Miranda, age 6
 My name is Julie Miranda and I am 6 years old. I am in first grade. My mom's name is Carmen and I have seven brothers and sisters. In school I study very hard. At my house there is a big patio where we have chickens, two cats, and a big dog. There are two rooms and a kitchen. My mom and my little brother and I sleep together in the same bed. On Sundays I go to work with my mom and help her with the housekeeping at a Spanish school. I water the flowers, sweep and help to wash the dishes. When we finish we have lunch together and we go home.

Glenda Marisol, age 12
 When I was small my mom would carry me on her back, and when I was eight years old I was very sick. I get along very well with my brothers and sisters because they are all very nice. I have 2 brothers and two sisters, and we all live together with my mom. My mother loves me very much. I don't know my father because he left when I was just a baby. I am in fifth grade now and I want to keep studying for as long as I can. I am grateful to everyone who supports me in my studies and wants to see me succeed. If Julie hadn't given me this scholarship, I would be working now and not in school.
